How Do You Find the Nth Term in an Arithmetic - Virtual Nerd In this lesson, it is assumed that you know what an arithmetic sequence is and can find a To write the explicit or closed form of an arithmetic sequence, we use. **Recursive and Explicit Formulas CK-12 Foundation** Write a recursive formula for a sequence, and use the formula to identify terms in the sequence. Identify a sequence as arithmetic, geometric, or neither. The first method requires that you know the previous term in order to find the next term **Conversations on Arithmetic adapted to the use of ladies - Google Books Result** - 6 minSal finds explicit formulas of arithmetic sequences given the first few terms of those sequences **How Do You Determine if a Sequence is Arithmetic or - Virtual Nerd** Description.
