

Trader (No Firewall Book 1)

Jack Lynch is a hedge fund manager and lothario who deals insider information. He juggles government, corporate, and Wall Street interests in his lucrative, corrupt schemes. One day, his determination to net a healthy profit proves to have irrevocable consequences, as his actions unleash a lethal drug upon the unsuspecting populace. Many take the dangerous drug and Jack turns a healthy profit on the stocks he bought low and then sold high. Jack, however, knows that the stock price will soon fall as deaths related to the drug are being reported, but the news has not gone public yet. His underhanded dealings have their consequences, though, and he soon finds himself and the friends he colluded with Teddy and Dinky under investigation by the FDA, the FBI, and the SEC. All the money in the world can't keep Jack safe as revenge waits in the wings. The suspense continues to build until the nail-biting climax in this fast-paced, thrilling new novel readers are unlikely to forget. One reviewer said, I sort of continued to live in the story because I didn't want it to end. There's a bonus - it promises to be a series. I can hardly wait!

by Jitsu Khamneithang Vaiphei commented, Trader is a novel not to be missed. And Krush13 states succinctly, Read it!
