

Beginnings and Ends: Twenty Stories of Science Fiction

Beginnings and Ends is a collection of twenty short stories of science fiction. Within the stories are tales of time travel, extraterrestrial encounters, futuristic medicine and other situations that may happen in the future. The main theme to remember is that humans react in very predictable ways. Although many of the stories are somber and thought-provoking, many are laced with humor. Each one of these stories is meant to be read, savored and enjoyed. The author wishes you well on your journey through these pages.
