

Bon Appetempt: A Coming-of-Age Story (with Recipes!)

[*Read by the author - Amelia Morris] Lunch in Paris meets *Adulting* in this funny and poignant memoir about collapsing cakes and coming of age in your twenties and thirties. When Amelia Morris found a beautiful chocolate cake in *Bon Appetit* and took the recipe home to re-create it for a Christmas day brunch she was hosting, it collapsed into a terrible (but delicious) mess that had to be served in an oversized bowl. It also paralleled the interesting and never-quite-predictable situations she's gotten herself into throughout her life, from her one-day career as a six-year-old lady wrestler to her ill-fated job at the School of Rock in Los Angeles. As she gets older, the kitchen is where she finds that even if some of her attempts fall short of the standard set by a food magazine, they can still bring satisfaction to her and to her family and friends. Full of hilarious observations about food, family, unemployment, romance, and the excesses of modern Los Angeles, and incorporating recipes as basic as toasted Cheerios and as advanced as *gâteau de crepes*, *Bon Appetempt* is sure to resonate with anyone who has tried and failed, and been all the better for it.
