

The Coyote: A Novel

#1 Amazon Bestselling Author Arizona shares nearly four hundred miles of international border with Mexico, thirty-six of which are completely unfortified. On one side lies desperation; on the other, opportunity. Tens of thousands of undocumented aliens pass through these thirty-six miles every year, only to find one of the harshest and most inhospitable deserts on the planet waiting for them. Hundreds die walking, casualties of the merciless sun, their bodies never to be identified. Others simply set out across the red Sonoran sands and vanish into thin air, as though they never existed at all. Special Agent Lukas Walker is assigned to investigate a murder, the only evidence of which is a twenty-foot design painted on a rock formation in the victims blood. He quickly learns that if the heat doesn't get you The Coyote will. Includes a free bonus novella: The Calm Before the Swarm.
