

Goat Song: A Seasonal Life, A Short History of Herding, and the Art of Making Cheese

A gorgeously observed chronicle about getting out of the city and living life on the land, in the tradition of Anne Dillard's Pilgrim at Tinker Creek. When acclaimed novelist Brad Kessler started to feel unsatisfied by his Manhattan lifestyle, he opted to tackle his issues of over-consumption and live a more eco-friendly life. He and his wife moved to a seventy-five acre goat farm in a small southern Vermont town, where they planned to make a living raising goats and making cheese. They never looked back. Now Kessler adds to his numerous accomplishments (winner of the 2007 Dayton Literary Peace Prize, 2007 Whiting Award for Writers of Exceptional Promise, and a 2008 Rome Prize) an array of cheeses that have already been highly praised by Artisanal, the renowned cheese restaurant in New York City. In his transformation from staunch urbanite to countrified goat farmer, Kessler explores the rustic roots of so many aspects of Western culture, and how our diet, alphabet, religions, poetry, and economy all grew out of a pastoral setting. With *Goat Song*, he demonstrates yet another dimension to his writing talent, showcasing his expertise as food writer, in a compelling, beautifully written account of living by nature's rules.
