

## Scary Stuff (Jane Wheel Mysteries)

Antique picker Jane Wheel has always loved old stuff, from vintage salt and pepper shakers to other families old photos and orphaned Bakelite buttons, and she cant really explain why. But she makes a living out of it, searching high and low at estate sales and antique shops and reselling her finds to other collectors. At least, its half a living---she makes the other half as an associate to a private detective, because shes just as talented at digging up secrets as antiques. While visiting her brother for the first time in years, Janes fascinated by a story of mistaken identity: On three occasions, someone has accused him of swindling them on eBay, only to realize hes not the right guy. Even though he doesnt see the point, she wants to look into it. Then back at home one of her parents friends is attacked, leading Jane to vow to get to the bottom of things. Out of nowhere, Jane suddenly has two cases, both edging a little too close to her loved ones for comfort, because one things for sure---whenever family gets wrapped up in your personal business, its bound to be some scary stuff.
