

## Levels of Life

Part history, part fiction, part memoir, *Levels of Life* is a powerfully personal and unforgettable book, and an immediate classic on the subject of grief. *Levels of Life* opens in the nineteenth century with balloonists, photographers, and Sarah Bernhardt, whose adventures lead seamlessly into an entirely personal account of the author's own great loss. You put together two things that have not been put together before. And the world is changed... Julian Barnes's new book is about ballooning, photography, love and grief; about putting two things, and two people, together, and about tearing them apart. One of the judges who awarded him the 2011 Man Booker Prize described Barnes as an unparalleled magus of the heart. This book confirms that opinion.
