

Presentation Skills for Quivering Wrecks

Spiders, death, the dentist, snakes and flying are in the list of the top 10 fears of businesspeople (Book of List). But the top position is held by public speaking. So great is this fear that most businesspeople have a single objective: to get off the platform as soon as possible. This book, based on a hugely successful course given to thousands of businesspeople, shows how anyone can speak with confidence to an audience of any size. Laced with humor and wit, the author emphasizes that you don't have to be a brilliant orator to be an effective speaker in business. Simply being good is plenty, because 95% of all business presenters are so awful!
