

Farewell My Legume

When the pride of a nation is at stake, the authorities find themselves up against the pride of a hard-nosed soft-tailed diminutive private eye. He may be their only hope, and he may be hopeless. Millions of dollars worth of maple syrup has come up missing from the worlds largest stockpile - the Quebec strategic reserve. Markets would be rattled if the whole story got out, so the mounties call in outside help, from the old oak tree office of a jaded gumpaw. With women on his tail, and on his last nerve, the new anti-hero for our age finds himself in a stickier situation than anyone had imagined. Dead bodies are a very sticky situation. A thousand miles from home, with strict orders to keep the job secret, this Private Nut will have to do more than crack a tough case - hell have to stay alive.
