

Taylor's Gift: A Courageous Story of Giving Life and Renewing Hope

In March 2010, thirteen-year-old Taylor Storch's life was tragically cut short by a skiing accident. With only a few minutes to consider their options, her grieving family made the life-changing decision to donate her organs. Knowing Taylor's caring spirit, they were sure this was what she would have wanted. Over the course of the next two years, Tara and Todd Storch connected with four of the five people who now live because of Taylor's gift. And through these encounters, the Storchs have discovered unexpected blessings that are changing countless lives. Now Tara and Todd share their inspiring story, shining a light at the end of the tunnel for those enduring the suffering of losing a loved one. Through the stories of the donor recipients, readers will discover hope in the midst of pain. Honest with their struggles, the Storchs show readers that life is a gift and our response to grief is a choice. They also speak with a clear voice about the importance and the blessing of being an organ donor, telling the inspiring story of the creation of Taylor's Gift Foundation and its goals to raise awareness of the need for organ donation, to re-gift life, renew health, and restore families. They are changing the conversation around the globe that organ donation is not about death--its about life! Foreword by Max Lucado.
