

The Horned Man: A Novel

The Horned Man opens with a man losing his place in a book, then deepens into a dark and terrifying tale of a man losing his place in the world. As Lawrence Milleran English expatriate and professor of gender studies tells the story of what appears to be an elaborate conspiracy to frame him for a series of brutal killings, we descend into a world of subtly deceptive appearances where persecutor and victim continually shift roles, where paranoia assumes an air of calm rationality, and where enlightenment itself casts a darkness in which the most nightmarish acts occur. As the novel races to its shocking conclusion, we follow Miller as he traverses the streets of Manhattan and the decaying suburbs beyond, in terrified pursuit of his pursuers. Written with sinuous grace and intellectual acuity, The Horned Man is an extraordinary, unforgettable first novel by an acclaimed writer and poet of unusual power. Reading group guide included.
