

In a Country of Mothers

Its the story of Claire, a therapist who many years ago gave up an infant daughter for adoption, and Claires patient Jody, a young woman confused about her future. Claire begins to suspect that Jody is the daughter she gave away. Both women have slightly troubling personal lives. Many of their relationships have shortcomings that neither is particularly happy with and they begin to rely on the patient-therapist relationship too much. This is a witty, darkly comic psychological thriller that is very, very readable.
